

### 23. Project: Primary healthcare services through Heevie mobile medical clinics in Ninawa governorates

In continuation of the support provided by Heevie organization for the health system in the returnee areas, that are showing an obvious return of their people who had been displaced as a result of the wars and crises. Among these areas is Sinjar district, which is considered one of the districts most affected by ISIS war and the following events.

In this context, and after the activities of the Heevie organization's project to support the health system in Sinjar district were completed, Heevie implemented a new project to support the provision of primary health care services in six towns within Sinjar district, through medical teams that included health staff, involving doctors, nurses and assistant pharmacists, and equipped with the necessary medicines and medical supplies.

The activities implemented within the project have played an active role during the state of security instability in the region lastly, through providing an opportunity for the beneficiaries to have safe, easy, free and equal access to health care services.

The project was implemented with the support of the World Health Organization and will cover a period of two months starting from the first of May to June 30<sup>th</sup> 2022. During the year, a total of **(3,134)** people got benefit from the consultations provided within the project.
