

#### 4. WHO representative in Iraq visiting Heevie projects in Duhok governorate

On Monday, 22/2/2021, and as a continuation of his field visits to health projects in the region, Dr. Ahmed Zouiten, the World Health Organization representative in Iraq, heading a high delegation from WHO, and with Dr. Afrasiab Musa, Director General of Health in Dohuk Governorate, visited Heevie Center for Physiotherapy and Medical Rehabilitation in Dohuk governorate, to closely observe the services that are provided there.

This was followed by a field visit to Heevie PHCC in Shariya IDPs camp, during which he had a short walk between its different departments. During his visit, the World Health Organization representative expressed his happiness for the level of services provided by the Heevie and highly appreciated its role in providing the health care services to the vulnerable populations from IDPs, refugees and host community. To be mentioned that both above projects are implemented by Heevie by the support of WHO.
