

7. Project: Primary health care services within Heevie/Farmamundi specialized health center at Cham Mishko IDP camp in Duhok governorate

As a continuation for the efforts to provide the best healthcare services to the IDPs within the different camp locations, and within the framework of the constant endeavor to fill the gaps in these services in various locations, Heevie Organization, in cooperation with the Farmamundi Spanish organization, started a new project to provide quality health services in Cham Mishko IDPs camp in Zakho district of Dohuk governorate. The camp is the largest in the Dohuk governorate, with a capacity of about 26,000 people, and it is currently inhabited by more than 22,000 displaced people. The project has preceded by establishing a specialized medical and health center in the camp, an activity which will be performed by Heevie engineering department, with joint support from both Heevie and Farmamund. The new center includes rooms for clinical examination in addition to ultrasound, dental, laboratory, pharmacy, psychosocial support, health awareness and other branches and department the center. The center began providing health services as planned since May 1st, 2021, by the support of the Spanish Agency for International Development Cooperation AECID and will continue to provide health services to Cham Mishku for a period of one year with possibility of extension. The number of patients who received treatment during the month of May 2021 reached **(2,122)** patients
